

What you can do with this procedure

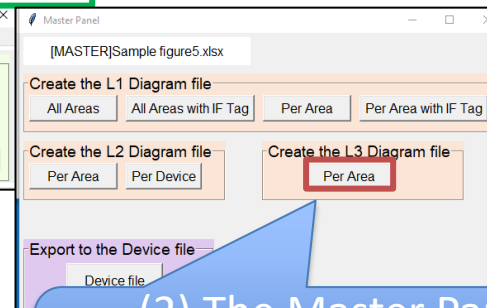

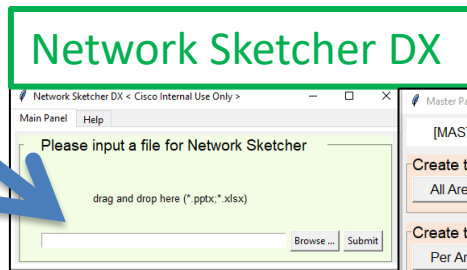

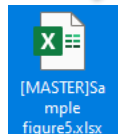

Have Network Sketcher load the master data and generate the L3 diagram.

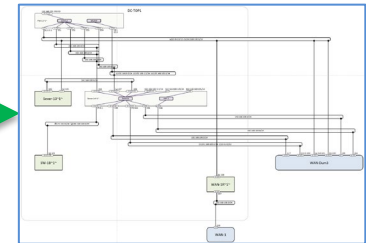

To generate an L3 configuration diagram

Load the master file to generate the L3 configuration diagram.

(1) Drag and drop the master file to the Main Panel.

OUTPUT

(2) The Master Panel is displayed. Click [Per Area] in [Create the L3 Diagram file].

* [All Areas] is available from Ver. 2.3.0.
